### **BRASS GRILLES**

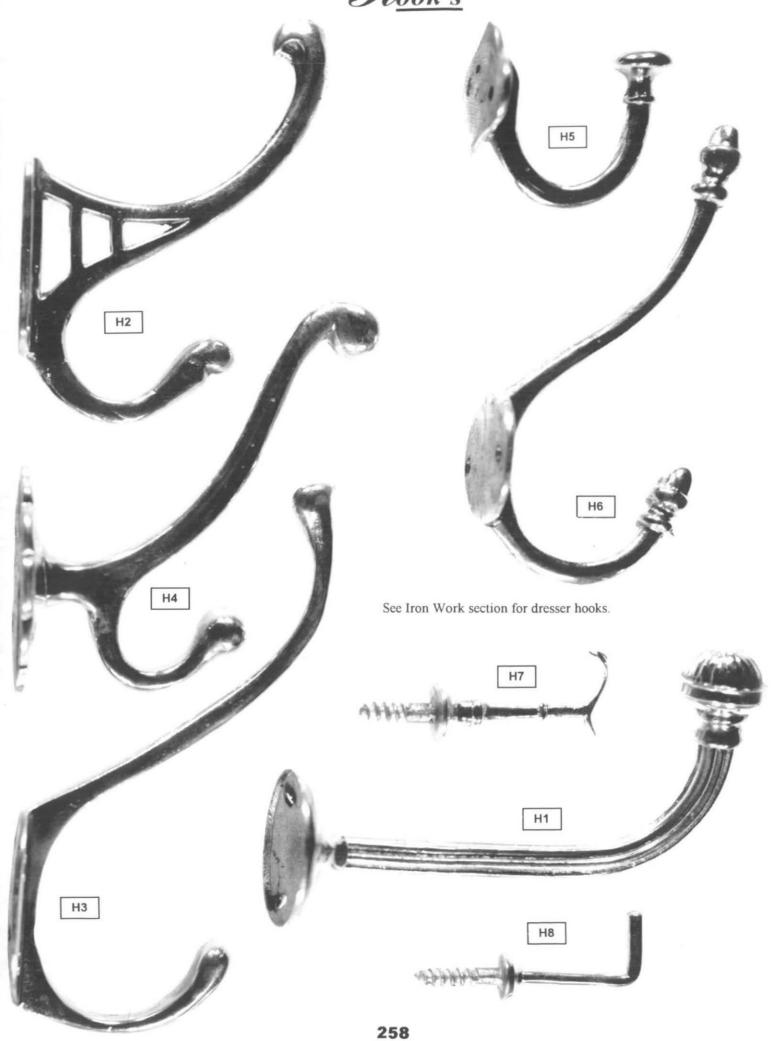

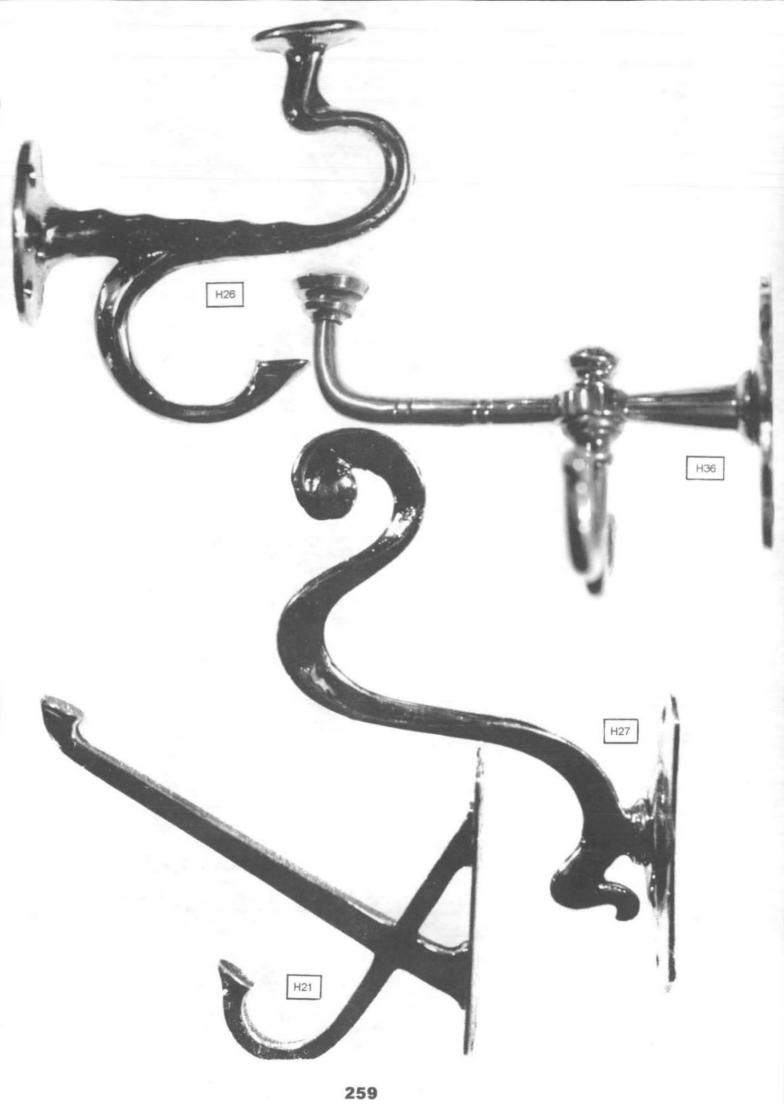

We can offer three designs of brass grille, as shown above. Each is individually set out to your special size.

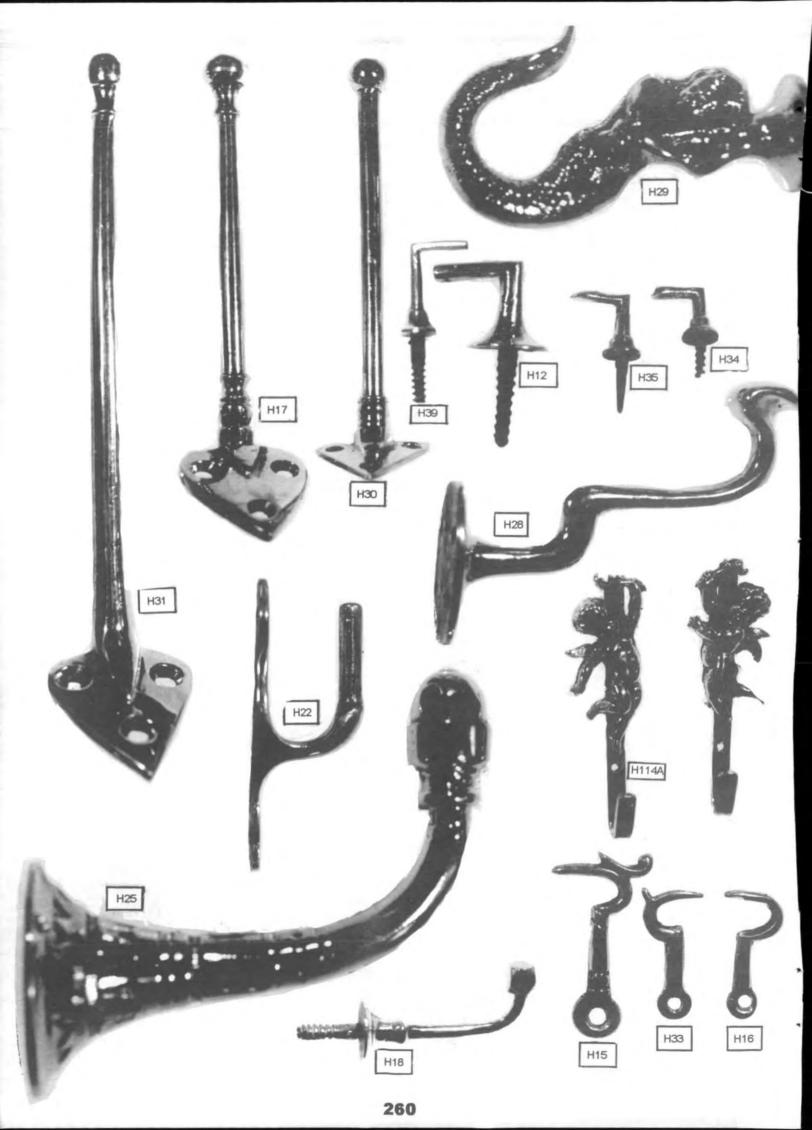

- Grille A. Is made from 1/16" diameter brass wire fixed to a 1/8"square surround, with binding wire to hold each wire in position at three separate points.
- Grille B. Is made with two 1/16" diameter brass wires set 1/2" apart and running diagonally. There is a binding wire at the top and bottom points of each crossover. As with Grille A, it has a 1/8 square surround.
- Grille C. Is made from 1/8" brass, half-lapped together with a small brass rivet at every other intersection. The joint at each crossover is cut by a milling machine and therefore produces a close fitting joint (unlike some grilles which have a guillotined joint, causing distortion).
- Grille D. Is made from 0.5 in. gauge brass wire

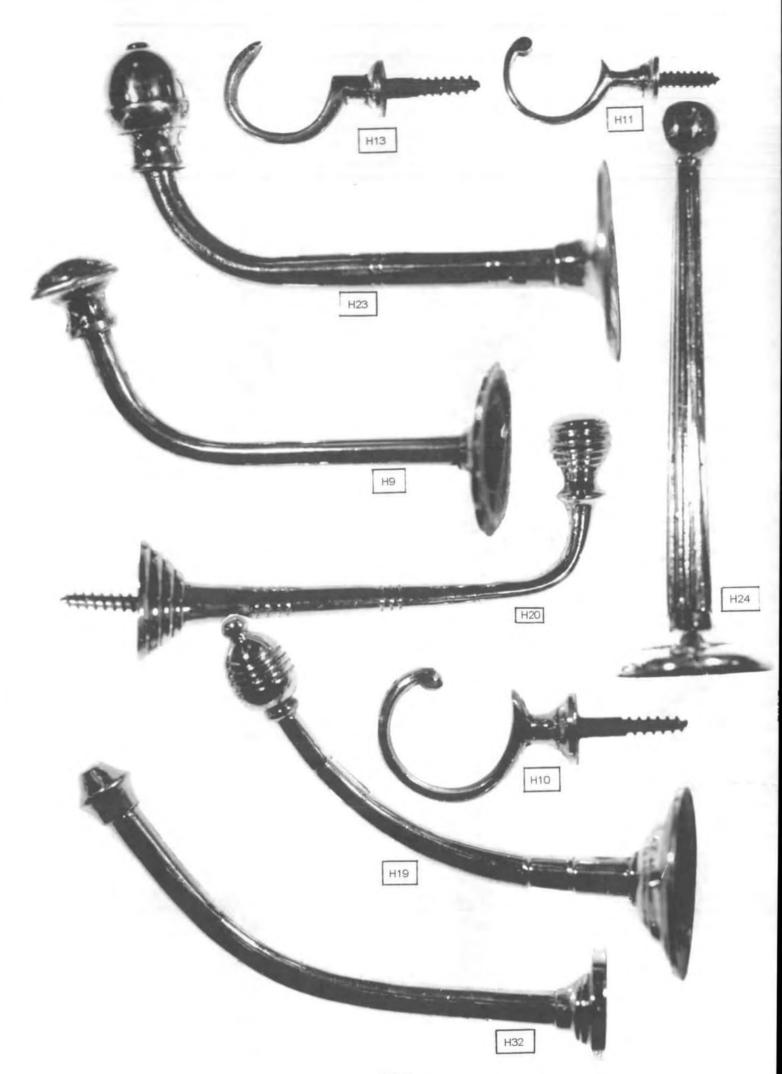

In addition to the above standard designs we would be pleased to quote for other designs that you may require.
